*If you are looking for a loan for your home / or you are in
search of financing for your new business, you will find this
website quite useful. In India when it comes to a loan, there a
number of providers for Personal Loans, Home loan or any
other types of finances. So deciding your lender is an important
step before taking a loan.*

Lenders vary in the nature of their business. So it is advisable to do a thorough research about different loan options and different lenders, repayment period, rate of interest etc.

Generally interest rates can be fixed or floating in type. A fixed interest rate by the name it suggests does not change during the loan tenure. A floating interest rate on the other hand is the rate updated by the lender due to market trends. A floating interest rate can go up or down depending on the financial trend. Some lenders are also providing the option to take the loan which is split between fixed and floating interest rates.

For Personal Loan

(About Personal loan eligibility)

The defining feature of personal loans is that they are unsecured. Here, the borrower does not Have to give anything in security to the lender bank. Generally, loans up to Rs 75 lakhs are lent out over a maximum period of 30 years. Thus, your loan amount and the interest rate on that amount is dependent on various factors such as m onthly income, credit history, etc.
